

If you want OEM your own APP or web application , you have to register in our website : <http://open.xmeye.net/en/> , then you will become a developer .

Pls follow the below steps to finish the register :

open website : <http://open.xmeye.net/en/>

Then click register :

Then you get below page :

Fill in all the items , and finish all the progress step by step .

A registration progress bar at the top shows four steps: 'Fill in user information' (active), 'Activate user account', 'Improve user information', and 'Congratulations! Basic information has been improved'. Below the bar is a registration form with the following fields: 'Mailbox' (placeholder: 'Please input correct mailbox address'), 'Password' (placeholder: '6-16 characters, include English and digital'), 'Confirm password' (placeholder: 'Please input password again'), and 'Verification' (placeholder: 'Verification', with a green box containing the number '8720'). At the bottom of the form, there is a checkbox for 'I agree and abide by it " Open Platform Service Agreement"' and a 'register' button.

After register you can login your account

And pls provide us the username and password .
